

At Novia Global, we want to help you run a more efficient business and to better serve your clients. With that in mind, we provide an implementation programme to support you in adopting the Novia Global platform; working closely with you to understand your business requirements, and undertaking the following process:

On completion of this programme, our aim is to ensure that your firm has successfully incorporated the Novia Global platform into your business model and that going forward, you continue to receive all the necessary ongoing support you need.

What areas of training do we offer?

Select your sessions and build your training plan. Here are just some of the topics available:

Platform Overview	Registering a New Client
Research Hub	Currency Exchange
DFM Model Portfolios	Trading
Reporting	Servicing and Processing

For further information please contact our implementation team on implementation@novia-global.com
