

The Secure Client Portal

A Clients' View

The Novia Global secure client portal allows clients to track all of the investments they hold on the Novia Global Platform. At the touch of a button it provides access to valuations and the detailed composition of portfolios.

As a secure, **view-only** online portal, the web portal is available wherever there is internet connectivity so clients are able to check on their investments at their convenience.

The web portal will automatically resize the display for easy use on mobiles, tablets and PCs and, by choosing to install the tile on the device, the service will be just one tap away.

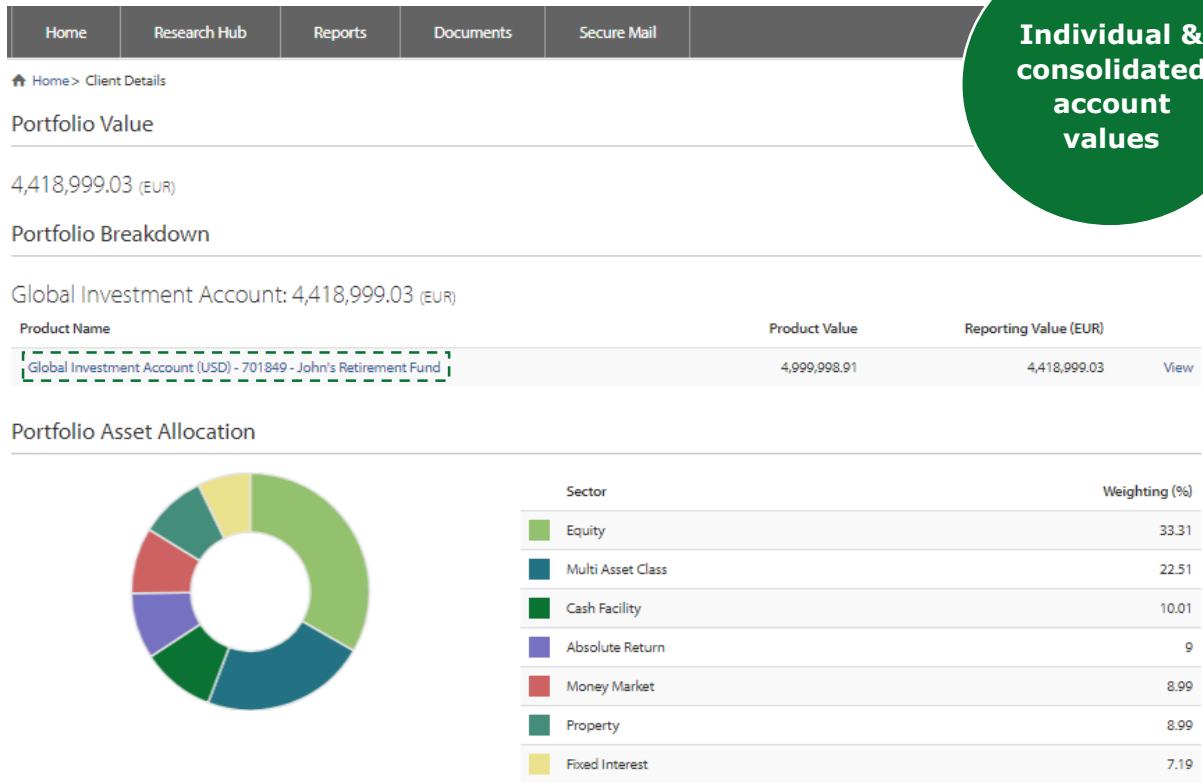

// Login details and instructions on how to register are contained within the client **Welcome Letter**. //

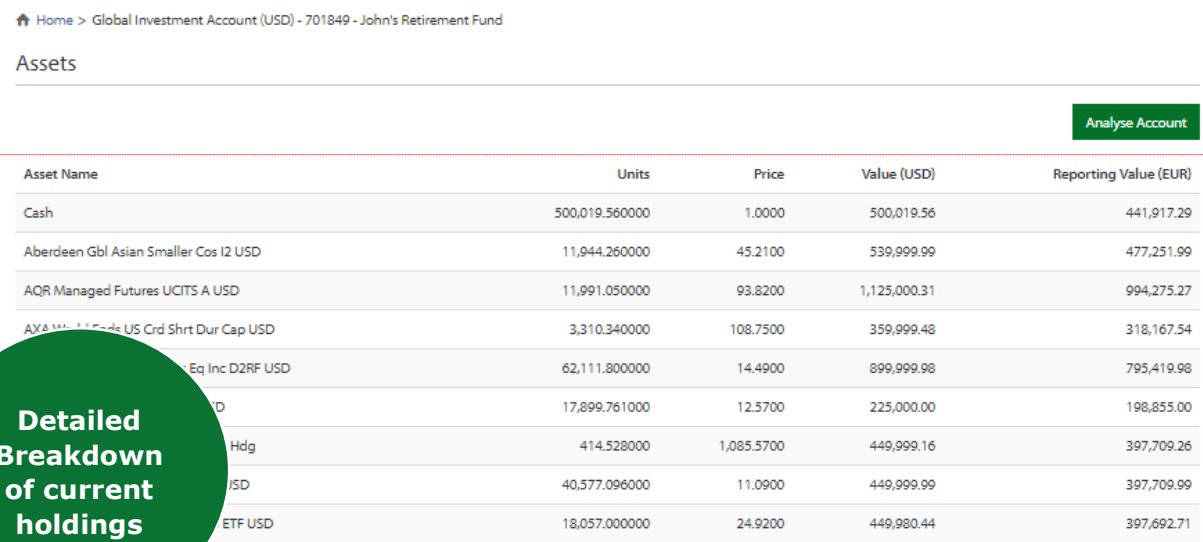

What can you view?

Upon logging in, clients will see a dashboard view on their home screen. It will show the total amount they hold on the Novia Global Platform, the value of funds by Product, and the overall asset allocation by sector.

Selecting a **Product** will reveal the investment funds it contains, the proportion of the sectors represented and their values.

A fully transparent **Transaction History** is available and includes a full list of all money movements, including charges for any selected period of time.
