

## **Chris Skelhorn appointed as Sales Director**

Novia Global, the international investment platform, is delighted to announce Chris Skelhorn's appointment as Sales Director.

Chris has over thirty years of sales experience - his previous roles have included senior sales positions at Aviva and Zurich before joining Novia Financial in 2009.

Chris joined Novia Global in 2015 and has been developing our international sales strategy that has taken us from launch to over £1bn of assets under administration. Chris will now be responsible for implementing and managing the sales activities, identifying new market opportunities, and defining the actions required to bring a new dynamic to our business.

"Chris has experience that is very hard to find," commented Steve Andrews, Managing Director of Novia Global. "As the international investment space evolves, the Novia Global platform also needs to evolve to continue to meet the demands and expectations of both advisers and their clients. I am delighted by Chris's appointment; he has a wealth of experience in the international platform space, and his appointment will strengthen our leadership team during this exciting period of growth."
