Explore some of the features and benefits that continue to make the **Novia Global UK SIPP** a trusted choice for advisers worldwide.

One Proposition. One Relationship.

Managing retirement planning shouldn't be more complicated than it needs to be.

Unlike some solutions that rely on separate platform and SIPP operator/administrator relationships, the Novia Global UK SIPP brings everything together in a single proposition, giving advisers one relationship, one support team and one point of accountability.

Built for International Clients.

International clients have different needs. The Novia Global UK SIPP supports multiple currencies, helping advisers manage investments in currencies aligned to their clients' local lifestyle and spending needs.

Combined with our UK, European and Middle East presence, advisers can work with a business built specifically for international wealth management.

Competitive and Transparent.

Competitive, transparent charging helps advisers clearly demonstrate value to their clients.

With straightforward pricing and no hidden surprises, advisers can recommend the Novia Global UK SIPP with confidence.

Award-Winning Service.

Service remains at the heart of our proposition.

Novia Global has been named both International Adviser and Investment International Platform of the Year and recently achieved a 5-Star Service Rating from AKG for 2026.

Protecting What Matters Most.

Protecting client assets is fundamental to how Novia Global operates.

Our UK SIPP is authorised and regulated by the Financial Conduct Authority (FCA) and supported by a robust governance framework, including our Investment Committee and SIPP Operator Committee. We safeguard client money and assets in line with the principles of the FCA's Client Assets Sourcebook (CASS), alongside ongoing due diligence of the investments and partners that support our proposition.

Eligible clients may also benefit from the protection provided by the Financial Services Compensation Scheme (FSCS), subject to the scheme's rules and limits.

Together, these measures help advisers recommend the Novia Global UK SIPP with confidence, knowing their clients' retirement savings are supported by strong governance, robust safeguards and a customer-first approach.

Trusted by Advisers Worldwide.

The Novia Global UK SIPP supports thousands of internationally mobile clients and now holds more than £1 billion of pension assets.

That scale provides reassurance that advisers are partnering with a well-established proposition built for long-term success.

Transfers Made Easy.

Whether it's UK pensions, QROPS, delisted ROPS or International Pension Plans, the Novia Global UK SIPP supports a broad range of pension transfers.

Integration with the Origo electronic transfer service helps make the process faster, more secure, and more efficient.

Dedicated Adviser Support.

From onboarding and transfers to benefit payments and ongoing servicing, our dedicated teams work alongside advisers every step of the way.

Combined with online functionality and practical tools, we help make day-to-day administration as straightforward as possible.
